January 10, 2019

<http://www.sugarhouserotary.com>

PO Box 526102, SLC, UT 84152

Thursday Noon, Forest Dale Golf Club

OPENING – 12 PM

Greeter: Don Saxon
Song: WINTER WONDERLAND
Pledge/4-Way: Frank Medina
Prayer/Thought: Larry Bodine
Guest Intro: Rich Young
Sgt. At Arms: Mr. Barry Bank

Piano: Craig Kaelin

Conductor: Dave Baranowski

*Sleigh bells ring, are you listening?
In the land, snow is glistening
A beautiful sight, we're happy
tonight
Walking in a wonderland!
In the meadow we can build a
Snowman,
Then pretend that he is Parson
Brown
He'll say, "Are you married?"
We'll say, "No man!"
But you can do the job, when
you're in town
Later on, we'll conspire
As we dream by the fire
To face unafraid, the plans that
we've made
Walking in a winter wonderland!*

WELCOME SONG

Song by Wally Williams (Former Club Member)

*Welcome to Sugar House Rotary,
We're mighty glad you are here
We'd like to sing you a long song
But a wrong song might appear
So sit you down and make some
Friends today . . . RIGHT HERE!*

THE SHARING PLACE

Since 1983, The Sharing Place has been fulfilling its mission to "provide a safe and caring environment for grieving children, teens, and their families while healing themselves." This is achieved through a support group model that emphasizes sharing honestly about feelings through art, play and discussion. All of this is conducted in a comfortable and warm renovated home in SLC.

The Sharing Place was founded when a determined young mother, Chris Chytraus, sought help for her two children after their father passed away. She soon discovered there was a lack of resources in the SLC area for grieving children. With the help of her children's therapist, Nancy Reisner, The Sharing Place grief support groups were created.

Today, The Sharing Place hosts 24 age-appropriate grief support groups for children ages 3-18. Parents also meet separately in groups designed to meet their needs. Each group is led by a coordinator and a number of

1/31—TBD
2/07—Club Assembly

Volunteers who have completed extensive training. As the program has grown over the years, requests for services has also grown. To meet demand, The Sharing Place partners with agencies and schools across the Wasatch Front to improve understanding of the impact the death of a loved one can have at different stages of life. In addition, The Sharing Place now holds grief groups off-site, extending our services to reach more vulnerable families who can benefit from the opportunity to share their feeling, experiences, and memories. For more information about the outreach efforts, please visit

mandated services will stop.

***The Carmen B. Pingree
Autism Center of Learning***

The Carmen B. Pingree Autism Center of Learning provides comprehensive treatment, education and related services for children with autism and their families. They use and develop the best practices, validated by research, while treating students and their families with dignity and respect. They partner with families, universities, service agencies, the government and our community to assist those affected by autism. The school undertakes and supports research to better understand autism, its causes, and the most effective treatments and interventions for individuals with autism.

Children with autism grow up to be adults with autism. Between the ages of 18-22, federally mandated autism services are no longer available. There is a critical need for quality vocational programming for adults with autism.

***Every 11 minutes a child is born who will be diagnosed with autism.**

***These children will likely live an average lifespan of 80 years—like any other adult.**

***In this coming decade, 500,000 of these adults will turn**

***It is estimated that up to 3500 adults with autism in Utah will require significant supports**

***These adults deserve a program that helps them have a high quality of life**

***Individuals with autism never stop learning and gaining new skills, this evidence-based program will help maximize their potential**

The Pingree School wants to expand programs to adults! What makes them different? They successfully serve the hardest, most affected population with quality programs!
