[www.RotaryClubofSugarHouse.org](http://www.RotaryClubofSugarHouse.org)

Thursday Noon - 2375 South 900 East

### OPENING - 12:00 PM

<b>Greeter</b>	Frank Medina
<b>Song</b>	This Land is Your Land
<b>Pledge / 4-Way</b>	Ray Twite
<b>Inspirational Thought / Prayer</b>	Cassie Craig
<b>Guest Introduction</b>	TBD
<b>Sergeant at Arms</b>	Barry Bank

### OPENING SONG

**Music:** Craig Kaelin, Piano  
Earl Jones, Conducting

**Song:** This Land is Your Land

This land is your land,  
This land is my land  
From California to the New York  
island;  
From the red wood forest to the Gulf  
Stream waters

This land was made for you and Me.  
As I was walking that ribbon of  
highway,  
I saw above me that endless skyway: I  
saw below me that golden valley:  
This land was made for you and me.

### WELCOME SONG

Song by Wally Williams (Former Club Member)

Welcome to Sugar House Rotary,  
We're mighty glad you are here  
We'd like to sing you a long song  
But a wrong song might appear  
So sit you down and make some  
friends today...Right Here!

## RCSH CLUB ASSEMBLY

### JULY MEMBER DATES

Director -	Steve Knudson
Director -	Cassie Craig
Sergeant at Arms	
& Chili Open Chair -	Barry Bank
Secretary -	David Baranowski
Treas./ Exec. Sec.-	Michael Tilton

## JULY 4TH CELEBRATION

I am apt to believe that it will be celebrated by succeeding generations as the great anniversary festival. It ought to be commemorated as the day of deliverance, by solemn acts of devotion to God Almighty. It ought to be solemnized with pomp and parade, with shows, games, sports, guns, bells, bonfires, and illuminations, from one end of this continent to the other, from this time forward for evermore.

~ John Adams

# THE rotarian OF SUGAR HOUSE

The 2015 Rotary International Convention in São Paulo has just ended, but it's not too early to register for next year's convention in Seoul, Korea. Find out more about this amazing city, and [register now](#).

Rotary members, Rotaract members, and club and district employees can [register for the convention online](#).

An email confirmation is sent for all registrations, including faxed and mailed registrations. If a letter of invitation is required for your visa application, you will receive it with your confirmation.

## Important deadlines

**15 December 2015:** Early-registration discount ends

**31 March 2016:** Preregistration discount ends

**30 April 2016:** Registration/ticket cancellation deadline

**1 June 2016:** Online registration ends; deadline for cancellations due to visa denial

## Registration fees

Register early to take advantage of discounted rates! [View registration fees](#).

For nearly seven decades Dick Post, a scientist at Lawrence Livermore National Laboratory created invention after invention.

When he passed away in April after a brief illness, he had more inventions than anyone else on the 3,000 person Livermore technical staff.

And Dick was working on one of his biggest breakthroughs, developing ways to greatly improve the storage of solar and wind energy, a crucial step in phasing out petroleum energy.

What Dick did even in his later years was incredible and that is what compels us to tell his story. How could one person function as if he was almost ageless?

Dick functioned as if he was almost ageless because each day he was doing what he loved, working in his office and lab, excited with what that day's discoveries might be.

With that wonderful attitude, the energy Dick exuded was almost magical.

In his personal life, Dick had a 66 year marriage to Marylee, until her passing two years ago, and they were devoted to each other and to their three children.

Even in his 90's, Dick enjoyed flying remote controlled helicopters with their son Stephen, a successful inventor who runs a research lab in Livermore, California.

In addition, Dick was learning to play the piano, despite the challenge of arthritic hands.

And at breakfast each morning he ate fresh pineapple, persuaded years ago by a Livermore Labs doctor that fresh fruit causes our bodies to rid themselves of cholesterol.

As for his incredible work and its impact on mankind:

"His loss is a huge one for us, and we all believe it is also a huge loss to the scientific community and field of alternate energy," Dick's daughter, actress Markie Post told the Los Angeles Times. "We thought he would be here a lot longer; we were spoiled by his vigor."

Other scientists are pursuing Dick's work, but few people anywhere will replicate his 96 years of intense energy, stoked by fascination with his work, with his family and with his life.

*Success Tip of the Week:* Let us live our lives so vigorously, that people will be surprised if we pass at the seemingly youthful age of 96.
